## EVENT DESCRIPTION

**Living Well Kent** is teaming up with **Futurewise** and the City of Kent to share our work on a new safe and healthy housing policy before it is finalized - and we'd like for you to join us!

Our goal is to gather your feedback on a new program the City is developing that will protect the health and wellness of renters. Any people interested in joining a larger discussion about rental living conditions are encouraged to attend the event.

We look forward to sharing this information with you and listening to your thoughts about the upcoming policy.
